

Review Module A4 Password and Main Button Level Quantum Biofeedback Practitioner

Remember to record your hours and score for your IMUNE Qualification Application.

No.	Lev	Question	Ans.
		Main Button Panel	
1.	QBP	If some buttons are greyed out it means the program is faulty.	
2.	QBP	A button will become black to show it is available.	
3.	QBP	If a button is not available then there may be some preceding action required.	
		Indicate which of the following buttons require a preceding action before they are available (are not immediately accessible from the Main button Screen) after password has been done	
4.	QBP	Shaping.	
5.	QBP	Calibration.	
6.	QBP	Test.	
7.	QBP	Therapy.	
8.	QBP	Biofeedback.	
9.	QBP	Tools.	
10.	QBP	Report.	
11.	QBP	Homeopathic activation.	
12.	QBP	Risk Profile	
		Password	
13.	QBP	It is <u>not</u> necessary to use the password button before proceeding to demographics.	
14.	QBP	Is it possible to use direct access after password to therapy, biofeedback and homeopathic activation for real emergency situations?	
15.	QBP	When a user is just going to do a pre-selected therapy (e.g. pain) if there is not an urgent therapy situation would the interface with the client potentially be better if demographics and calibration were performed as a minimum.	
16.	QBP	Is it necessary to always test before doing therapy on a client.	
17.	QBP	Is there any restriction on the therapy facilities that can be accessed if only calibration and not test is done with a client?	
18.	QBP	If testing is not undertaken with a client then risk profile will still contain information relevant to the new client.	
19.	QBP	<i>About</i> provides access to the prayer program forming the basis of the subspace facility in the system	
20.	QBP	<i>Check current rectifications</i> provides facility to quickly optimise the session and indicates the areas that may warrant further consideration	
21.	QBP	<i>Check current rectifications</i> is based on the Nelson pathway to health	
		Help	
22.	QBP	The simple help manual and help buttons access different	

		manuals.	
23.	QBP	A navigation manual and other manuals written by are included with your package and available free of charge. These are available by installing the Advanced Help Manual during Clasp Installation	
24.	QBP	A troubleshooting manual is included with your package as part of the Advanced Help Manual	
25.	QBP	It is necessary to set the shaping function in action before doing anything else.	
26.	QBP	The shaping function can be accessed and modified at any time during use of the program.	
Password			
27.	QBP	It is not necessary to use password before gaining access to demographics.	
28.	QBP	Password panel first tells you how many tests you have run	
29.	QBP	If the entry to password says “0” tests close the program and computer, re-open and check. Often this happens because the system has not been closed down correctly.	
The indication that the program is activated is indicated by:			
30.	QBP	A 7 digit number in the top left.	
31.	QBP	A single digit number in the top left.	
32.	QBP	On the Password page the numbers in the upper right and left are computer generated so the computer knows what information to give you for your client today	
33.	QBP	When updating a single digit in the top left of password means that the program activation has been maintained during the update.	
34.	QBP	On the Password page the date in the upper right corner should read the date your program was first installed	
35.	QBP	On the Password page if the date in the upper right corner is not today’s date you should check your computers date and clock to reset it to today	
36.	QBP	When updating the software it is always necessary to have the program re-activated.	
User password			
37.	QBP	The standard/default password is:1210	
38.	QBP	The standard/default password is:0120	
39.	QBP	The standard/default password is:0210	
40.	QBP	It is possible to select a user specific password.	
41.	QBP	The benefit of selecting a user specific password is to be clever.	
42.	QBP	The benefit of selecting a user specific password is to prevent unauthorised access by others to the program.	
43.	QBP	The benefit of selecting a user specific password is to protect client data.	
44.	QBP	If the program is updated the password is automatically re-set to the default.	
45.	QBP	The battery save option when ticked will ensure that the battery power is only used when the program is actively interacting	

		with the client. (relevant to older QXCI/EPFX only)	
46.	QBP	It is possible to access IRB informed consent form from the password screen.	
47.	QBP	If a program needs re-activating then the numbers to be provided for re-activation are on the top left and the top right of the password screen.	
48.	QBP	NFP (null field protection) protection means that the software is doing it's best to protect the user from the influence of computer generated geopathic stress.	
Add Faculty			
49.	QBP	Add faculty enables you to nominate beings to provide virtual assistance when using the system	
50.	QBP	This can be a person living or spirit	
51.	QBP	Permission should be sought	
52.	QBP	If the user has forgotten to tell the system to connect to the SCIO then it is possible to do this from within the main button screen.	
53.	QBP	Is it possible in homeopathic activation to enter a patient name and treat them subspace with specific homeopathic remedies?	

If a question or the answer is unclear please discuss with colleagues/your trainer. It will not be possible for IMUNE to respond to individuals for clarification. If after discussing as above clarification is required then please do contact QBP@imune.net.
