

**Review Module E4 Sarcode Therapy**  
**Level Quantum Biofeedback Therapist**

*Remember to record your hours and score for your IMUNE Qualification Application.*

No.	Lev	Question	Ans.
<b>General/Information</b>			
1.	QBP	Sarcode is the pattern of healthy tissue	
2.	QBP	Organ Sarcode therapy is good for viewing the frequency balances within the body while seeing many locations or portions of that organ at one time	
3.	QBP	Original Sarcode Results will have two additional boxes appear by it when therapy has been done in the Risk Profile to view any changes which may have happened to the organs after detoxing the organs	
4.	QBP	Original Sarcode Results opens the panel for the Organ Chart; this chart allows view of imbalances by high and low peaks and allows therapy on the page	
5.	QBP	The Organ Graph shows imbalances: particularly it tends to show that the high spikes may be overstressed or over active organs and low spikes may tend to be from sluggish or under active activity	
6.	QBP	Organ degeneration or inflammation may also show on the Seyle bar since degeneration tends is a Chronic condition or Exhaustion Phase, and Inflammation is a Acute situation which is in the Alarm phase	
7.	QBP	Original Sarcode Results becomes visible by the buttons “Sarcode Rectification and Current Sarcode Risks” when Risk Profile and detoxing is done	
<b>Sarcode-Timed Therapy</b>			
8.	QBP	Sarcode Therapy is another wording for organ or tissue therapy	
9.	QBP	Sarcode Therapy heals an organ	
10.	QBP	Sarcode therapy provides the pattern of healthy tissue to an organ enabling potential correction of a corrupted organ template or blueprint	
11.	QBP	Sarcode therapy is a very safe treatment	
12.	QBP	Sarcode therapy can help a stressed/overactive and an underworking organ	
13.	QBP	Sarcode therapy may need resources/ client vitality for the organ to implement blueprint corrections	
14.	QBP	Resonance in individual reaction may be useful in tracking progress in organ restoration	
15.	QBP	It is very easy to restore a severely debilitated organ	
16.	QBP	Sarcode therapy is about organ structure restoration- like rebuilding a wall- and may take several or many sessions	
17.	QBP	Both the resonance in individual reaction and how well an organ rectifies in a 1 minute treatment can indicate the severity of organ	

		disability	
18.	QBP	If an organ debilitation is suspected or definite then checking the resonance next visit is an indicator	
19.	QBP	For a severely debilitated organ therapy rectification may be low for several sessions and then start to increase	
20.	QBP	There are specific facilities in Spinal & sarcodes for items such as eyes, ears, digestion, muscles, nerves.	
21.	QBP	Stem cell therapy with the device may help make more available new raw materials to improve organ functioning when used with sarcode therapy	
22.	QBP	A healthy organ is likely to have most of its functions intact including an intrinsic ability to detoxify	
23.	QBP	Sarcode Therapy is one way to help the client with the process of elimination which the body must be able to do in order for it to naturally detoxify	
24.	QBP	An indicator that an organ is not significantly stressed is that rectification is over 60 after 1 minute sarcode therapy	
25.	QBP	Before undertaking any deliberate detox activity the drainage routes should be healthy	
26.	QBP	Sarcode therapy is one way to support drainage organs prior to detox	
27.	QBP	Improving the organ function on its own may be sufficient to adequately detox	
28.	QBP	By working though each of the drainage/detox organs it is possible see where possible obstructions may lie to natural detox by observing organs that do not rectify to over 60 in 1 minute of stress support.	
29.	QBP	The organs that are not >60 rectification can be treated again until all are >60.	
30.	QBP	There is a wholistic organ restorer that will select and give stress support to the most stressed organs in an automatic sequence.	
31.	QBP	The wholistic organ restorer facility may be a good general stress support for newer users or where there is not yet a clear client stress picture	
		<b><i>Other Sarcodes Facilities</i></b>	
32.	QBP	Sarcodes may also be treated in Biofeedback, and Short Sarcodes Rx	
33.	QBP	Short Sarcodes Rx has no therapy location it is just informative	
34.	QBP	Short Sarcodes Rx allows for therapy for point-by-point work on specific organs, allowing the unconscious to show inflammation, infection, degeneration and toxic percentages.	
35.	QBP	Biofeedback is less intense than sarcodes/timed treatments and may be more suitable for the elderly, low vitality, children, animals
